

## COMPANY PROFILE

Integrated e-security IP CCTV Access Control Fire and Burglary

## COMPANY PROFILE

BACKED BY EXPERTISE IN THE DESIGN, procurement, and installation of Integrated Electronic Security Systems. DCS Security Systems Limited has etched a name for itself in the field of electronic security industry in Nigeria and the world over with over 15 years of tested and trusted experience.

Established in 2006, the company has more than 25 experienced employees spread across the country. We specialize in the implementation of integrated IP (CCTV), Alarm/Burglary System, and Access Control Systems.

DCS Security Systems brings its expertise gained in integration of electronic IP CCTV, Fire and Access Control projects in the banking, housing and energy sectors to fulfil your physical security requirement with total commitment. Our team of engineers who understand the demands of various and individual clients (both corporate and individual) provide their combined talents to solving IP CCTV requirements to ensure completion of projects in the shortest possible time.

Our goal therefore is to ensure that we adhere strictly to specified and required international standards on project procurement and delivery. Just as our company is rapidly growing, so is our commitment and dedication towards exhibiting high skills in project delivery. We are constantly upgrading our skills to adequately position the company for effective service and project delivery within adequate time and budget.

The company's innovation and systematic approach to understanding its customers' requirements is proven by the usage of its products in the very stringent and secure Banking Industry. There's a reason we are one of the fastest-growing security firms in Nigeria and in other part of the world: it is basically because we believe that how we grow is just as important as why we grow. Nothing is more crucial to us than our clients' relationships; by focusing on each client's needs through local and international management team. We have become large to meet any security

### MISSION STATEMENT

WE ARE COMMITTED TO USING A CONVERGENT APPROACH TO CREATE PHYSICAL SECURITY SOLUTIONS AS WELL AS ADDING VALUE TO SECURITY MANAGEMENT BY USING CUTTING EDGE TECHNOLOGY BASED SOLUTIONS.

challenge, yet agile enough to adapt to the unique needs of each client. Our services are perfectly fitted and tailored to suit the wide array of different clients such as Corporate Business Houses, Government Parastatals, Non-Government Organizations, Educational Institutions, Military, Para-military, Police, Financial Institutions, Residential etc., who engage us for their security need. We have also been regular suppliers to Nationalized and Multinational Banks, Airports and Airline Companies, Refineries and Oil Depots, Docks and Ports, Manufacturing companies, Waterfronts, Five Star and Seven Star Hotels and Private Sectors.

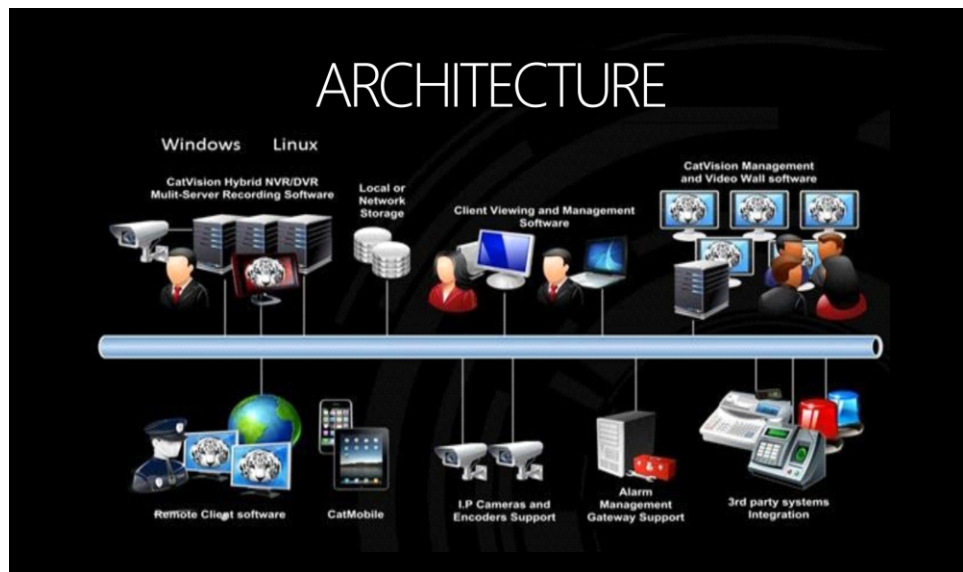

In collaboration with our partners, over 1200 systems are installed worldwide i.e. Nigeria, Kenya, Gambia, Ghana, South Africa, United States of America, Canada, United Kingdom, Australia, Europe, India and in the Middle East. Today our company has numerous satisfied customers' across the globe. We have a unique scale to judge growth, the scale is "Satisfied Customer List." In fact we have a very assertive policy based upon it, the policy is: instead of increasing turnover alone; increase quantum of satisfied customers.

Beyond Surveillance

## SECURITY SOLUTIONS

Keeping your people and your business safe is the cornerstone of what we do. Our focus on business efficiency and continuity ensures your core operations are effectively managed with total economy, providing a return on investment greater than any other security platform.

"Integrity, hard work and brilliant innovation underpin all we do. Combined with a deep understanding of our customers' business needs, we deliver powerful solutions that surpass traditional security thinking."

DCS security solutions protect what's important to you. IP CCTV, Access control, intruder alarms, perimeter security and business policy execution are integrated with CathexisVision IP Video Management Solution to create a smarter, more cost-effective way to manage critical assets. You'll have peace of mind with an intelligent security solution designed to ensure business continuity, create efficiencies, protect your assets and keep people safe. Find out how DCS integrated security solutions can offer you real operational benefits.

**1. ACCESS CONTROL. Secure site management, control and access.** DCS offers flexible, integrated access control solutions to meet your security and business requirements. Efficiently and reliably manage multiple access points to control risk, improve business efficiency, ensure business continuity and increase profitability.

**2. PERIMETER SECURITY. Deter and detect.** Perimeter fences must be highly reliable, difficult to bypass and not generate false alarms, even in adverse conditions. DCS delivers robust perimeter security systems suited to the most rigorous requirements of high security sites.

**3. INTEGRATED SECURITY. Real operational benefits.** We believe security solutions are essential business systems, uniquely positioned to deliver value that goes beyond traditional security thinking. The DCS Security Systems solutions fully integrates access control, intruder alarms, perimeter security and business policy execution - delivering unparalleled business efficiencies.

**4. HIGH SECURITY CAPABILITIES. Controlled, safe spaces.** Efficiently managing access to critical sites with some of today's highest security requirements is essential to protecting the safety of the public and enforcing the laws and regulations that govern our society.

DCS integrated security solutions are re-scalable, flexible and give you complete control of the most sensitive security installations.
